# MCDC Summer

## Blending Montessori, STEM, & Summer Fun!

Enjoy the summer at Montessori Child Development Center! Our goal is to make the season full of learning, exploration, and great memories. Our program features a STEM (Science, Technology, Engineering, and Mathematics) theme this year, with engaging weekly activities that are Montessori-aligned, hands-on, age-appropriate, and enjoyable for every child. The focus of each week will rotate in that order, beginning with Science in Week 1.

Children will explore through meaningful work, collaborative projects, outdoor experiences, and creative expression, all within the calm and nurturing Montessori environment they know. Each day includes a balance of discovery, movement, and social connection, helping students build independence, confidence, and curiosity as they enjoy the energy of summer. Flexible scheduling options allow families to choose what works best for them, all within a consistent and supportive routine.

## Calendar

Week 1: 6/29 - 7/2  
Week 2: 7/6 - 7/10  
Week 3: 7/13 - 7/17  
Week 4: 7/20 - 7/24  
Week 5: 7/27 - 7/31  
Week 6: 8/3 - 8/7  
Week 7: 8/10 - 8/14  
Week 8: 8/17 - 8/21

No school July 3<sup>rd</sup> in observance of Independence Day.

## Schedules

### Flexible Weeks

2-Day	Half Day
3-Day	Full Day
5-Day	

## Tuition

Please see the 2026 Summer Program Application for tuition & fees.

# Enrichment & Extracurriculars

Our Toddler and Primary classes enjoy lively music and movement sessions with our music teacher each week. Elementary students participate in ukulele and music science classes once a week and stay active with PE from Monday through Thursday with our coach. All students spend plenty of time outdoors, exploring, playing, and discovering the wonders of nature! We also offer a variety of optional extracurricular activities:

## Little Star Sports

Primary students get moving with our PE coach in this action-packed class! Through exciting drills with cones, tunnels, and balls, children develop coordination, teamwork, and a love for physical activity.

## Soccer Shots

Primary students sharpen their soccer skills with high-energy drills and games! They build teamwork, coordination, and sportsmanship, all while having a blast on the back field.

## NEW: Sticky Fingers Cooking Classes

Each 45-minute class lets students explore a new recipe every week for 8 weeks! Primary and Elementary each have their own class, making cooking fun, hands-on, and full of creativity.

## WEBBY Dance

Primary students groove, move, and express themselves in this energetic dance class! Guided by experienced instructors, children learn routines, build confidence, coordination, and rhythm.

## Music Lessons

Students can take one-on-one lessons with our music teacher, tailored to their interests and skill level. Lessons are based on availability and offer an opportunity to develop technique and a love for music.
